

ERLANGGA BAIHAQI

erbaihaqii@gmail.com | www.linkedin.com/in/erlangga-baihaqi | https://erlanggabaihaqi.github.io/QA-Portfolio

Quality Assurance professional with 1.5+ years of experience in manual and functional testing across web, mobile, and API. Currently contributing to large-scale fintech product development at Bank Mandiri, with hands-on involvement across multiple release cycles from UAT through production. Skilled in test case design, defect management, and cross-platform testing. Eager to expand into QA Automation to deliver even greater impact.

Work Experience

Bank Mandiri Aug 2025 - Present

Manual Quality Assurance

- Contributed to Livin' Merchant POS across 3 release cycles (R4–R6), covering Android, Web, and Kiosk platforms — designing and executing 650+ test cases across Merchant Onboarding, Loyalty Program, and Promotion Configuration features
- Reported 75+ defects across UAT, Beta, and Production environments; identified a critical settlement failure in Beta — where payment via dongle and loyalty point generation were both broken — preventing it from reaching production
- Performed functional, regression, smoke, and compatibility testing across 3–5 cycles per environment per release; validated data integrity using SQL queries to support defect investigation
- Contributed to Livin' by Mandiri testing KPR features (loan application, installment simulation, and document upload) across complex end-to-end flows requiring third-party data injection per test case; designed and executed 50+ test cases

Gamatechno Sep 2023 - Mar 2024

Internship Manual Quality Assurance

- Designed and executed test plans and test cases for web and mobile applications (Android & iOS), covering functional, sanity, smoke, and regression testing
- Identified, logged, and tracked defects across 3 products: Worxspace (corporate chat with HR features), Kasdana (invoicing with automated payment reminders), and Odoo HRIS deployed for JIEP

Education

Universitas Negeri Yogyakarta Aug 2019 - Aug 2023

S1 Information Technology, 3.76/4.00

Training and Certification

- **Binar Academy SQA Bootcamp** (2023): Experienced in mastering SQA fundamentals, managing testing processes, creating detailed bug reports, applying SCRUM, conducting API and performance testing (Postman, JMeter), using GitFlow for version control, and automating web and Android tests with Katalon Studio.
- **FGA Kominfo SQA Bootcamp** (2023): Actively tested the SecondHand website by developing test scenarios, test cases, and bug reports, and performed API testing with Postman using strong RESTful API knowledge.
- **SCRUM Professional Certification** (2022): SCRUM Certification by CertiProf
- **KMMI UNY SCRUM PM Training** (2021): SCRUM Project Management Training by Universitas Negeri Yogyakarta
